

SUSPENDED MAGNETS

DND – MC

**INNOVATION
IN ACTION**

The DND-MC suspended magnets from **SOLLAU** are permanent magnets in a steel housing suspended **crosswise or in-line** above a belt conveyor – a simple safeguard against tramp metal where there is not much of it in the material.

8 series (5 ferrite, 3 neodymium) for belts of **500–2,000 mm**, installation height **up to 450 mm**, capture of ferrous metal **from 0.5 mm**.

Optionally a **slide-out cleaning plate** and a **rail-mounted frame** – the magnet slides out to the side and is cleaned without stopping the belt.

We give a 10-year guarantee on DND-MC suspended magnets!

GUARANTEE

10 years

INSTALLATION HEIGHT

up to 450 mm

BELT WIDTH

500–2,000 mm

TAILORED SOLUTIONS

8 model
series

SEPARATOR PERFORMANCE

- Installation height up to 450 mm (Mx F series) – even for deep burdens on wide belts
- Ferrite: capture from 1 mm, deep and temperature-stable field
- Neodymium: capture from 0.5 mm, low weight for light structures

TECHNOLOGICAL INNOVATIONS

- Slide-out cleaning plate with strips – you shake the tramp metal off outside the magnetic field
- Rail-mounted frame – cleaning without stopping the conveyor
- In-line installation above the discharge at the head pulley

MANUFACTURING

- 8 series, 14 sizes – a magnet matched exactly to your belt and burden depth
- In-house production in the Czech Republic, built to order
- Finished in the customer's colours and design

SERVICE

- Authorised SOLLAU service – site survey, design, installation, training

HOW WILL WE LOOK AFTER YOU?

1. We visit your
site

2. We measure up
and design

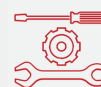

3. We build to
order

4. We install

5. We commission
and train

6. We provide
authorised
service
